SATURDAY'S VOTE

The Republican Voters of Ohio County sh situation-To-day's Convention to be a Representative one-Candidates.

The Republicans of Ohio County held their primary elections Saturday afternoon and evening and put in nomination in every district a ticket that cannot fail to ommend itself in every instance to the t is, of careful and conservative business men; especially is this true of the andidates for county and school commisoners, important offices that should be illed by the very best men that can be ound. The gentlemen nominated by the Republicans Saturday for these positions are all well known in this community and do not need to have their praises sounded. If elected, the people can rest assured that their administration will be a wise and economical one unattended by any scandal

In addition to nominating the district In addition to nominating the district officers, there were chosen in each district ten delegates to the county convention to be held at the Court House at 2 o'clock this afternoon. This convention will nominate four candidates for the House of Delegates, appoint delegates to the Congressional convention to be held at Weston on the 14th inst., and conferes to the First District Swapping Convention and choose a trict Senatorial convention and choose a new County Executive Committee. The new County Executive Committee. The convention bids fair to be enhusiastic and harmonious. It will not be run by "boodle" representatives, nor will it be diagraced by any "counting out" processes, such as distinguished the recent Democratic county convention when Hon. Ed. Robertson was so shamefully downed. A good strong ticket will be nominated to go with the admirable tickets normated Satwith the admirable tickets nominated Sa and the whole will make up a bal re is every reason to believe

Dr. Cunningham's letter of defense published in your lasue of this morning. Had I been correctly reported, the Doctor I am sure, would not have found it necessary to rush precipitately into the newspaper in defense of his school-mate, Mr. Jackson. I will not take up your space by quoting the Doctor's reprint of your article, but simply make a plain statement of what I did say, and as the Doctor and I have always been the best of friends, I will tell him even more about this Alaska missionary business than I told the reporter. I did not say that the appropriation by the Government was, "to give Jackson and his friends good salaries and enable them to live in a country where they can work some seal operations on the sly." I said nothing whatever reflecting on Rev, Sheldon Jackson's character as a gentleman and christian, for I believe him to be both, just as his honorable friend in his defense state; he is an enthusiast in the cause in which he is engaged and believes in the is the fact, and is made the occasion of christian, for I believe him to be both, just as his honorable friend in his defense states; he is an enthusiast in the cause in which he is engaged and believes in the efficacy of good, liberal material aid to back his efforts, and has persistently for years, tried to get Congress to grant the appropriation which he finally secured. I have not a doubt of the honesty of his motives and the firmness of his belief that with it he can do good. As to his "working seal operations on the sly," I have only to say that the seals do not go within 500 miles of Sitka, where Mr. Jackson lives, and he could nottrade in them if he were disposed, "on the sly" or in any other way, and I never attributed any such acts to him.

As to "Mr. Parker having two pupils and they are his own children, one of whom is a baby," I am again incorrectly reported. What I said was, that Rev. Mr. Parker, his wife and a lady assistant, were up to St. Michael's, at the mouth of the Yukon river, this spring, under the auspices of this "Educational Bureau for Alaska," of which Rev. Sheldon Jackson is the General Agent or Superintendent, and that his three little children would be his only scholars and one of them was a baby. Mr. Parker is an Episconalain and

his only scholars and one of them was a baby. Mr. Parker is an Episcopalain and baby. Mr. Parker is an Episcopalain and goes as a missionary and teacher, drawing a salary of \$200 and all expenses going and coming are paid by the Educational Bureau. Doctor Cunningnam is pleased to say "There is not a word of truth in the assertion one of Jackson's friends, Parker by name, sent there as a teacher, only has two numlis and they his children one of

name, sent there as a teacher, only has two pupils and they his children, one of whom is a baby. The public and the country may rest assured that Rev. Dr. Jackson is no party to such business."

With all respect to Dr. Cb "familiarity with the work of his missionsries and teachers in Alaska," I say emphatically, that Rev. Mr. Parker has not one scholar at St. Michael Station and will not have if he remains there all winter, which he will not do if he can get a vessel to bring himself and family back to civilization. Mr. M. Lorenz and wife, the fur company's agent at St. Michael's, spent a month on St. Paul Island with us and came to San Francisco on the same vessel with me, and crossed the continent with me, and and crossed the continent with me, and are at their home to-day: P. O. address, Round Pond, Maine. I will toll you as they did me, that there are but twelve Indians and one white man now at St. Michael's for Mr. Parker to work on, and that he and his family are discouraged at the thought of wintering in a climate sixty-live degrees below zero, where they caunot do a single particle of good in return for the pay they get and to compensate for living in such a rigorous climate. No! Mr. Parker may stay there for five years and he will not have five scholars in that time; this statement I can substantiate by twenty as respectable witnesses as Dr. Cunningham would require. Mr. Parker and his lamily are good people and you are well as the stantial and the second and the sum of the second as the sum of the second and the sum of the second as the secon and crossed the continent with me, and nosees as Dr. Gunningham would require. Mr. Parker and his family are good people and no one was more surprised than they, so Mr. and Mrs. Lorenz told me, at finding the true state of things; so much so, that Mrs. Parker wanted to return on the same vessel. A teacher was sent to Onnotoska by Mr. Jackson and I was told in Onnotoska as I came through that he was waiting to be taken off as his school teaching was a failure for want of pupils, he having no more than half a school teaching was a failure for want of pupils, he having no more than half a dozen. As Mr. Parker only went up in May I do not think Dr. Cunningham knows a thing about him or his kovements and was drawing strongly on his faith in Mr. Jackson when he said "there is not a word of trathin the assertion, &c." Now for Mr. Jackson! Dr. O. says: "he has done more for the good of the people of that country than any other or all other. has done more for the good of the people of that country than any other or all other men put together." This is strong language and I assume when a gentleman of the high standing of Dr. Cunningham makes such a statement he is prepared to prove what he states. Where are the churches he has built? Where are the congregations he is preaching to? Where the schools outside of Mrs. McFarland's?—and just here let me say that when this
